

GENERAL ATTACK BY BRITISH

NEWS FROM CITY HALL AND DEPARTMENT WORK

Big Increase in Registration of Voters—Evening Schools Open—Examination for Nurses

A very healthy increase in the total number of voters for the state election this year as compared with last year is shown in the totals obtained at the office of the registrars of voters, the total this year being 15,687 as against 15,180 last year, an increase for this year of 507.

This is a rather unusual increase for a year and is due in a great measure to the busy naturalization sessions during the year; the naturalization classes being much larger than heretofore. But the attaches of the registrars' office do not deny that there has been an uncommon interest manifested in registration for the state election this year and in the course of conversation today it was learned that a great many who have been more or less dilatory in other years have called round to see the registrars this year and they included a man who was naturalized in 1860 and who never took the pains to get registered until this year.

The time for men who desired to become voters in time to cast their ballots continued to pass also.

HUNTER ON HONEYMOON

Caught by Wardens and Brought to Court—\$50 Fine in Milk Case—Fast Auto Driving

George Ritchie of Roxbury, who was married a few weeks ago in that city and was enjoying a honeymoon in this section, went hunting without a license in Chelmsford and Billerica, Saturday, and ran into three deputy game wardens, all of whom appeared to testify against him in police court this forenoon. George pleaded guilty, however, and after the story had been related to the court was ordered to pay a fine of \$10.

The defendant said that as he understood the law a man had the right to hunt without a license upon securing the permission of the owner of the land. He said he was after crows only and would not have shot at any other bird or animal had he seen one. He was ordered to pay the minimum fine and given time to send the money from Roxbury.

Fined \$50

For having in his possession milk to which water had been added, Gostonly Chelmsford of Chelmsford was ordered to pay a fine of \$50. State Inspector Daniel McCarthy told the court that he recently went to Chelmsford's farm in Chelmsford and took samples from nine cans of milk. Six of the samples showed that water had been added. The defendant denied knowing anything about the water, claiming that he had raised the milk on his own farm.

Charles W. Williamson of East Chelmsford was found not guilty of a complaint charging him with assault and battery on Charles Kappeler. The parties concerned live opposite each other and two weeks ago last Saturday they got into an argument over some timber which Kappeler had loaned to Williamson. The evidence showed the defendant had ordered Kappeler to "go home" before the alleged assault. The court ruled that the complaint was the aggressor, Frederick S. Harwood, was entered and the case was placed on file. It seems that the offense occurred during the time of the Rockingham fair. On his way from the fair, Mr. Parker lost his license and in turning the corner of Central and Middlesex streets met with an accident which attracted the attention of Patrolman P. B. Clark. Defendant was then notified to appear in court.

ANYONE'S SURROUNDINGS AFFECT HIS WORK AND PLEASURE

We see it in the influence of these buildings without dark corners and plenty of daylight. We see it in the brightness and cheerfulness of our customers and the people employed.

We see it in the confident and assured acts of everybody which show a sense of safety wherever they go.

The education of our people from the high up advertising sanctum down to the fourteen-year-old lads and lasses is to wit: not to degrade life by false markings, false words and anything that deceives each other or the public.

CONCERTED OFFENSIVE MOVEMENT IN WEST

British Have Made General Attack Along Front From Ypres to Loos—Accompanied by Bombardment of Belgian Coast—Italy and Russia to Participate in Balkan Expedition—Nish-Saloniki Line Cut

The British have made a general attack along nearly the entire front from Ypres in Belgium to Loos in northern France, the German war office announced today. It declares that all the attacks failed.

The line of the new attack, reported by Berlin, extends for a distance of more than 25 miles. If it proves to be in reality a concerted offensive movement, it represents one of the most extensive the British have undertaken.

Coast Bombarded
The British attack was accompanied by a bombardment of the Belgian coast.

Italy and Russia to Join
Italy probably will take part in the allied movement in the Balkans, Premier Viviani told the French senate today.

That Russia would participate in the Balkan operations of the allies begun

by Great Britain and France, already had been announced by Premier Viviani. Sir Edward Grey in the British house of commons today made a similar announcement, saying the Russian troops would be sent as soon as they were available.

Premier Salandra Back from Front
The French premier's announcement follows the news from Rome last night that Premier Salandra of Italy had

TRIAL OF NEW HAVEN MEN

Work of Selecting Jury Resumed Before Federal Judge Hunt at New York Today

NEW YORK, Oct. 14.—The work of selecting a jury to try William Rockefeller, Lewis Cass Ledyard, Edward D. Robbins and eight other directors, past and present, of the New York, New Haven & Hartford railroad, charged with conspiracy to monopolize the transportation traffic of New England, was resumed today before Federal Judge Hunt.

Delancy Nicoll of counsel for the defendants, resumed the examination of Charles E. Gleason who yesterday was in seat No. 4, three tentative jurors having been selected.

A new panel of 100 men had been summoned in anticipation that the original panel would be exhausted before 12 satisfactory jurors could be found. Fully a third of the new panel also sought to be relieved from duty. Meanwhile Messrs. Rockefeller, Ledyard and Robbins were in earnest conversation with John G. Milburn, of counsel for the defendants.

Gleason, who is a jewelry broker, was tentatively accepted by both sides.

Heated Argument
George B. Raymond, a manufacturer of piping and head of a corporation which bears his name, was accepted as juror No. 5, but not until after a somewhat heated argument between Mr. Nicoll and R. L. Batts, attorney for the government, over whether he should be required to disclose his banking connections.

Mr. Raymond, however, settled the matter by saying he had no objections to answering the question and stated that he had deposited with the Corn Exchange bank. The spokesman also informed the court that he had an antipathy against the Sherman anti-trust law, under which the defendants were indicted, and thought it ought to be amended. He thought he would be able to give a fair verdict, nevertheless.

J. G. Ham, an advertising agent, the next spokesman, was excused by the court after he had stated that he believed the Sherman law had been "overworked."

William D. Tucker, a manufacturer, was tentatively accepted as juror No. 6.

ONE ON H. GONZALES

JOE FLYNN DISPLAYS THE FIRST TROPHIES OF THE HUNT IN GORHAM STREET

They're always producing something in Gorham street along the white way district, fish, game or babies. In this particular instance, it's Joe Flynn's game; recently it was Harry Gonzales' fish; more recently it was Mike Markham's baby. There's the keener rivalry between the storekeepers of that section and two particular dyed-in-the-wool rivals are Harry Gonzales and Joe Flynn, both of whom claim to be champion hunters and fishermen of the street.

Harry generally puts it over Joe on the number street in a season, while Joe depends on his prowess as a hunter to offset Harry's boasted ability as a fisherman. The moment the law went off a few days ago all of the Gorham street hunters shouldered their trusty guns and made for the woods. Each went by himself and none would give the other a tip as to his hunting grounds.

Harry went out Columbus day and again yesterday without committing any wholesale murder among the birds of the forest or the squirrels thereof, and upon returning home each evening his first query was as to how Joe fared. Someone told him that Joe didn't get anything and Harry thoroughly satisfied decided to remain at home today.

But this morning as he came to his store he noticed a crowd standing in front of Flynn's store window and

going across the street he turned green in the face with envy on beholding in the window a fine assortment of squirrels, pheasants and other game all brought down by the unerring eye of Joe Flynn. One look was sufficient. Harry dashed across to his own place of business and got down his gun and cartridges and disappeared from Gorham street and at this writing he hadn't returned. Tomorrow will tell whether he'll pick up a bigger collection in his window or be forced to fall back on his big catch of fish last summer to keep up his reputation.

AT THE PLAYHOUSE
Saturday will be another red letter day on the calendar of the children! Rumpelstiltskin will come to life and delight all the youngsters as he moves about on the screen at the Playhouse!

Also Tennyson's Masterpiece, "Enoch Arden" which the high school scholars will all enjoy.

The second in the series of the motion picture entertainments will be even more interesting than the first. Success attends the movement and the committee in charge is hard at work preparing good programs. Beside the fairy stories and all the good films that have been selected to amuse the children, there will be good wholesome comedy and now and then foreign scenery and instructive subjects that will be enjoyed by the parents and teachers.

The afternoons and evenings are sure to see crowded houses but there will be good seats for all at the morning shows; also boxes for parties can be secured in advance by telephoning 72 W. Mrs. Hobson, Hollywood avenue. It is hoped that the mothers will come and share in the children's fun.

RAID ON LONDON

55 Persons Killed and 114 Injured by Zeppelins Last Night

LONDON, Oct. 14.—Fifty-five persons were killed and 114 injured in the Zeppelin raid over London last night.

TO SEE WORLD'S SERIES

MR. MONETTE CAME FROM CANADA AT INVITATION OF HON. JOHN T. SPARKS

"A baseball fan will never miss the opportunity of seeing a good game, no matter how far he has to travel," so spoke Frank Monette, a former resident of this city, who is now superintendent of the Canadian Kitting Co. of Hamilton, Ont., in conversation with a Sun reporter this morning.

Mr. Monette last week received an invitation from his close friend, Hon. John T. Sparks, to come to Lowell as his guest and the two would take in the world's series games at Boston and the invitation was accepted. Mr. Monette arrived here Sunday and on Monday and Tuesday he found himself comfortably seated in the grandstand at the baseball field in the Hub, and was much impressed with both games.

Mr. Monette states that the history of which he is superintendent has turned out large orders of underwear for the coming and winter orders are now coming in. Business is good at Hamilton, he says, although many men left the factories for the war.

BEQUESTS OF \$50,000

Charitable and Educational Institutions Benefit By Will of Late Edwin G. Foreman

CHICAGO, Oct. 14.—Charitable and educational institutions received bequests aggregating \$50,000 in the will of the late Edwin G. Foreman, which was filed for probate today.

The bulk of the estate was left to the widow and three children.

SUPERIOR COURT

The argument in the case of Blaisdell vs. Farmer, both of Tewksbury, an action of tort by which the plaintiff seeks to recover \$5000 for alleged false arrest, was started at the opening of this afternoon's session of the superior court. The case went to trial yesterday morning and was given the jury late this afternoon.

COPPER MINERS' STRIKE

EL PASO, Tex., Oct. 14.—Prospects of a conference to discuss terms of peace in the Arizona copper miners' strike were discerned today following the receipt by the mine managers last night of a statement of 15 miners proposed by the strikers as peace conferences.

COL. HOUSE AT WHITE HOUSE

WASHINGTON, Oct. 14.—Col. E. M. House, President Wilson's close personal friend and political adviser, arrived at the White House today for a visit.

GENERAL ELECTRIC CO. MAY HAVE PLANT HERE

Report That Company Wants Buildings of Bigelow Carpet Mills Soon to be Vacated

The business of the Bigelow-Hartford Carpet Co. in this city, will soon be no more, as was predicted in The Sun over six months ago, and within a very short time all the remaining machinery will be taken down and shipped either to the Clinton, Mass., or the Thompsonville, Conn., plant of the company. Rumor has had it for some time that the big plant would be sold, and it is now reported that the General Electric Co. is a very likely purchaser. Supt. Pierce refused to make a statement this morning relative to what the company intended doing with its local buildings.

The company has been withdrawing its business from Lowell gradually. The movement started away back at the first of the year when the Hartford Carpet Co. gained control of the local plants. Since that time machinery has been taken down daily and shipped to Clinton and Thompsonville. Many of the employees who read the handwriting on the wall a short time after the merger went into effect, and some who believed in The Sun's predictions, have left and secured employment in other local manufacturing establishments. Others have held on tenaciously, hoping against hope that the report would turn out to be only a wild rumor, but these are now willing to believe that the big industry is to be given up locally.

The Bigelow Carpet mill has not been of much benefit to Lowell since the big strike that occurred soon after Agent Lyon's departure and its leaving is not to be at all regretted, providing a good live concern such as the General Electric Co. decides to establish itself here. The carpet plant in this city which was established in 1899 is rated as one of the largest of its kind in the world. The local property is divided into 20 mill buildings and covers an area of 420,000 square feet. The buildings have an area of 1,067,450 square feet, and are well lighted and well ventilated, thoroughly equipped against fire and in first class condition. There is also a large power plant, consisting of 10 boilers, 3 steam turbines and 3 water turbines. The power plant has a boiler capacity of 4,531 horse power. It also has a share

in the Locks and Canals Co. to an extent which gives approximately 500 horse power for the water wheels at an extremely advantageous figure. The steam and water turbines are coupled with electric generators and all power is transmitted electrically. The machinery drives are well arranged in groups, and individual motors are installed where any advantage can be gained by so doing. The mills have their own side tracks connecting with the Boston & Maine railroad, and have excellent facilities for receiving and shipping goods.

The General Electric Co., which is mentioned as a most probable purchaser of all the local mill buildings is the largest electrical firm in the world. The company was incorporated under the laws of New York to manufacture electrical apparatus and appliances of all kinds. It controls the following companies by the ownership of all or part of their capital stock: Edison Electric Light Co., Edison General Electric Co., Thompson-Houston International Electric Co., British Thomson-Houston Co., Ltd., Sacramento Valley & Eastern Ry. Co., United Securities Co., Stanley Electric Manufacturing Co., Electrical Securities Corporation, Electric Bond & Share Co., Sprague Electric Co., Bull Hill Copper Mining & Smelter Co., It also owns and operates other extensive plants, having an aggregate floor area of 11,410,000 square feet at Schenectady, N. Y.; Lynn, Mass.; Pittsfield, Mass.; Erie, Pa.; Fort Wayne, Ind.; and Harrison, N. J. The Canadian General Electric Co. has the perpetual and exclusive right to manufacture and sell General Electric apparatus in Canada. Since the start of the war the big electrical concern has been overwhelmed with war orders and every one of their plants are running to capacity, while a good many orders have been sublet on account of lack of space. Surely the coming to this city of such a large and well established concern would be hailed with delight by the people of Lowell. The Morgan and Schwebel interests are also looking for the local plant, it is said.

INCREASE ARMY

President Wilson Today Approved Secretary Garrison's Plan

WASHINGTON, Oct. 14.—President Wilson today approved Secretary Garrison's plan for increasing the army. It calls for an annual expenditure of \$151,000,000 an increase of approximately \$75,000,000. The plan in its approved form will be presented to congress with the full backing of the administration.

Much of the increased appropriation would be devoted to coast defenses and a substantial increase in the field artillery. Details as to increases in the personnel of the army have not yet been made public.

If the navy, which will ask for an increase of \$100,000,000, carries through its plan, making the total naval appropriation \$215,000,000, the appropriations for national defense including the army's \$151,000,000 would total \$330,000,000. It is probable, however, that in final form the appropriations will not exceed \$300,000,000.

POSTOFFICE CHANGES

The changes in the interior of the local postoffice which have been underway for some time, even before the appointment of Postmaster Meehan, are now completed and a long felt want has been fulfilled. As the new mail carrier is working without fault, the entire outgoing mailing division has been transferred to the second floor of the building. This enabled Postmaster Meehan to have the incoming mailing division moved to the Gorham street end of the office, leaving the greater part of the floor space for the carriers. As a result, instead of being account of the congested condition, the carriers now have plenty of room to sort their mail without coming in contact with each other during the rush.

NASHUA STRIKE

4000 Strikers Awaiting Outcome of Conference Tomorrow

NASHUA, N. H., Oct. 14.—More than 4000 operatives of the Nashua Mfg. Co. and the Jackson Mfg. Co., who have been on strike for two weeks, are awaiting the outcome of a conference tomorrow to be attended by Messrs. S. M. Hilditch, agent of the Nashua Mfg. Co., William H. Barry, counsel for the strikers, and Mayor James H. Crowley. This conference is said to have been arranged by Gov. Rolland H. Spaulding, who met representatives of both factions early in the week and endeavored to have them adjust their differences.

IS UNDER MARTIAL LAW

PROCLAMATION PLACING THE HAGUE UNDER MARTIAL LAW ANNOUNCED TODAY

THE HAGUE, Oct. 14, via London, 2.30 p. m.—Martial law in a specified and partial form was proclaimed here today. The proclamation affects the various trades which furnish supplies for the army.

The proclamation, announcing that the Hague was placed under a minor state of martial law, was placarded this morning. The measure affects movements of workmen employed in the trades which provide military supplies. These workmen hereafter will be compelled to obtain military permits if they desire to go to other districts. Foreigners are not affected by the decree.

ATTACK OF ANTHRAX

71-YEAR-OLD LAWYER MAKING REMARKABLE FIGHT—BETTER TODAY

NEW YORK, Oct. 14.—George F. Stackpole, the 71-year-old lawyer, who has made a remarkable fight against an attack of anthrax during the past six days, was today reported by his physicians as showing continued improvement. Mr. Stackpole is not entirely out of danger, however, for the considerable amount of poison in his system has greatly weakened his heart, action and stimulants have been necessary for the past 48 hours.

When Mr. Stackpole awoke today he immediately asked for the details of the world's series baseball game. Physicians attending Mr. Stackpole expressed the opinion today that the serum secured from the government would soon entirely offset the poison in the patient's system, and complete recovery would follow.

TROUBLE STRIKE TIES UP TRAFFIC

WILKESBARRE, Pa., Oct. 14.—A street car strike has again tied up traffic in this city and adjoining towns for the second time within six months.

LAYMEN'S MISSIONARY MOVEMENT

CHICAGO, Oct. 14.—The Laymen's Missionary movement today opened its campaign for increased interest in missionary affairs, with the first of a series of 75 conventions. The convention here was attended by missionaries from all over the world, many of whom will address the sessions which continue until Sunday evening. The campaign is to culminate in a national missionary congress in Washington, D. C., April 26 to 30, 1916.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process. Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's today.

EVERY DAY ETIQUETTE

"When I call to take a girl to the theatre should I remove my overcoat?" asked Jack.

"If you have plenty of time to spare you may remove your coat before entering the drawing room, but if the time is limited it will be all right to keep it on," answered his father.

"What is the proper way to ward an announcement card when only the mother of the bride is living?" queried Madge.

"The card may read thus," said her aunt, Mrs. Charles Horace Dana has the honor of announcing the marriage of her daughter, Frances to Mr. Harry L. Frank on Thursday, February the third, nineteen hundred and one at St. Margaret's chapel."

"I have received an announcement from a newly married couple in another city and, as they will not be home here for a month, I am in doubt about how to send a gift," remarked John.

"A wedding announcement does not call for a gift but if you wish to give one you may wait until they are settled."

THE MEXICAN SITUATION

WILLIAM LOEB, JR. APPEALS TO STATE DEPARTMENT TO HELP STOP CONFISCATION

WASHINGTON, Oct. 14.—William Loeb, Jr., representing American smelting and refining interests in Chihuahua, Mexico, appealed to the state department today to use its influence to stop the confiscation of the American plants reported threatened by General Villa. Counselor Polk gave assurances that the department would do all in its power to urge Carranza to safeguard the American interests.

Villa has denied any intention of interfering with the property.

NOT AUTHORIZED BY VILLA

Deceit Threatened Confiscation of American Smelting and Refining Properties

EL PASO, Tex., Oct. 14.—Villa officials in Juarez today explained that the recent decree threatening confiscation of the American smelting and refining properties and also that of other large mining companies in Mexico had been issued by Gov. Miguel Alvarado of Chihuahua, without authority from General Villa.

NO BREAK WITH CARRANZA

General Obregon Denies Report of Disloyalty to First Chief in Mexico

TAMPICO, Mex., Oct. 13, via Laredo, Tex., Oct. 14.—Gen. Alvaro Obregon, who is conducting Venustiano Carranza on a tour of inspection, learned today that rumors of his disloyalty had become common and had been published in the American papers. Reports that he was about to break with Carranza have been current in Mexico for days, but no one had spoken to Obregon of this.

"It was with the greatest surprise that I read this account of a break with the first chief," he said to a correspondent of The Associated Press and requested a denial of it.

Carranza's time today was taken up largely in receiving callers and accepting social favors from his friends here. It is expected the march will be resumed some time tonight and Monterey reached some time Thursday.

Accompanying Carranza is Ignacio Bonillas, head of the department of communication and public works. The visit of Bonillas to Tampico was attended by material benefit to the shippers of Tampico. The bar at the mouth of the harbor has increased in size until it had practically closed the port to large vessels. Attention of Mr. Bonillas was called to the situation and he issued orders today for a dredge to be brought here from Frontera and placed at work immediately to deepen the channel.

Obregon rendered to Carranza a report in detail of operations in the north and central part of Mexico. State by state he pictured the situation and according to this report there are few places in which the control of the constitutionalists is not complete. Railway and telegraph communications have been re-established throughout the greater part of the region and the disposition of troops has been such as to maintain this supremacy.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process. Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. THE BRITISH NAVY

Little News Published in London—Reprint Articles from U. S.

LONDON, Oct. 5 (Correspondence of the Associated Press).—British papers have republished from American and other neutral papers various estimates of the number of German submarines sunk by the British, but so far the admiralty has authorized no figures or estimates of its own, contenting itself with the explanation of A. J. Balfour, first lord of the admiralty, that since the number is not definitely known it is better neither to under estimate nor over estimate it.

The British public noted with satisfaction the small number of ships—six only—that were reported sunk by submarine attack last week. While this is one of the smallest losses for a week's period and almost infinitesimal compared with the enormous amount of shipping exposed to attack, even this showing has led the British to no less confident predictions that the navy has altogether overcome the danger.

This is but one of the naval topics on which the press is virtually silent except to reproduce the comment of foreign papers. American newspaper readers are daily presented with more or less well supported discussions of matters relating to the British navy, of which not a line appears in print here.

Recently some of the London papers republished from an American paper an article about a new air craft constructed to fight Zeppelins. It was passed by the press bureau with the observation that it could in no degree speak for the accuracy of any of the statements therein.

When the American papers were printing references to the net across the English channel, describing it even to the name of the makers, the British press said it was an almost startling experience if a London publisher should be permitted to print any of the many articles about the British navy that are appearing so frequently in the American journals.

AGAINST ZEPPELIN RAIDS

LONDON PAPER ADVOCATES BOMBARDMENT OF SLEEPING TOWNS IN GERMANY

LONDON, Oct. 14, 2.55 p. m.—The Globe which has been conducting a campaign advising reprisals for Zeppelin attacks, says today: "The public knows now that the Zeppelin, choosing its own time and circumstances for attack, is practically immune against the ordinary weapons of aerial warfare. The only way to hit the enemy is to strike at him as he strikes at us—to bombard his sleeping towns."

COTTON FUTURES ACT

MANAGERS OF EXCHANGE DO NOT CONTEMPLATE ANY CHANGES IN BY-LAWS

NEW YORK, Oct. 14.—Owing to the feeling of uncertainty among cotton traders as to the attitude the United States department of fisheries would take toward the cotton futures act, the board of managers of the exchange today issued a statement saying that it did not contemplate any changes in the by-laws or rules of the exchange which would affect existing contracts.

No confirmation was obtained today of the report that the government intended to appeal from Judge Hough's decision. In cotton circles it was generally believed that the case would be appealed in an effort to get an opinion from the United States supreme court as to whether the method of applying the tax of two cents a pound on the cotton futures act was unconstitutional or not.

COUNT HELD IN \$3500

MAX LYNNAR LOUDEN HELD ON AFFIDAVIT CHARGING SUSPICION OF BIGAMY

NEW YORK, Oct. 14.—Count Max Lynnar Loudon, said to be a civil engineer and inventor of military appliances, who was arrested here last night, was held in \$3500 bail for examination Saturday when arraigned today. The count was held on a short affidavit charging suspicion of bigamy.

It was said at the detective bureau while the nominal charge is bigamy the arrest really was made at the request of the department of justice at Washington.

Count Loudon, in a statement, denied the charge.

DR. FERDINAND GOETZ DEAD
BERLIN, Oct. 14 (by wireless to Sayville, N. Y.).—Dr. Ferdinand Goetz of Leipzig, president of the German Athletic union and founder of the Turn Verein of San Francisco, is dead at the age of 59.

OPEN GOLF TOURNAMENT

BROOKLINE, Oct. 14.—The annual fall open golf tournament of the country club, one of the oldest golf courses in New England, began today with 54 outside entries in the qualifying round. The tournament scoring was unusually high. H. H. Hovey of the Rhode Island Country Club started in an 85, this being the only card under 90 for the first time in several years. Francis Quinn, the former amateur and open champion, did not start.

RECOGNITION OF CARRANZA

LONDON, Oct. 14, 2.45 p. m.—Great Britain will award final action by the United States in reference to the recognition of General Carranza before deciding upon its attitude. In the case of Carranza today Lord Robert Cecil, parliament under secretary for foreign affairs, said the government would defer consideration of this question for the present in view of the fact that the American government had not yet granted the expected recognition.

"ALL THE MUSIC OF ALL THE WORLD"

Largest Stock in Lowell

South Carolina, is here visiting his brother, H. Doss, the known proprietor of the U. S. Clock and Suit store in the Bradley building. Mr. Doss is very much impressed with Lowell and the big manufacturing plants.

A business men's club has been started in Lynn and the new organization, which will be known as the Lynn City club, and which is composed of about 100 members, has leased the two top stories of the Hotel Hamilton in Lynn, which is owned by Edward Cushing, former proprietor of the Richardson hotel of this city.

The regular monthly meeting of the Ladies Aid society of the Centralville M. E. church was held yesterday afternoon at the home of Mrs. J. E. Jenkins, 132 Hampshire street. A feature of the meeting was the presentation of a gas lamp to Mrs. Russell M. Fox, benefactress of the church, by the hostesses during a social hour.

A real live possum clinging head downwards to the fire escape of the Arlington hotel attracted attention this forenoon when Asst. Agent Gilmore was called to take care of it. The animal was slipped to an employee of the hotel for a Mr. Prescott and escaped before it reached the real owner, Agent Gilmore, however, said that it was placed where it cannot escape.

A harvest supper and entertainment constituted the attraction at the Highland M. E. church last evening. The affair was under the auspices of the Ladies Aid society of the church and there was a large attendance. Supper was served from 6.30 to 8 o'clock. Mrs. A. B. Cameron was chairman of the supper committee while Mrs. Herbert Yeomans directed the serving in the dining room. The entertainment consisted of the following: Piano solos, Miss Bertha Chapman; readings, Miss Virginia Sargent; and piano duets, Miss Rena Knapp and Howard Large.

DEATHS

HOLLEN.—Patrick Hollen died yesterday at his home, 62 Willie street. He leaves four daughters, Mrs. Albert Wheeler of North Billerica, Elizabeth, Annie and May Hollen, and two sons, William of Philadelphia, Pa., and Thomas, Hollen of this city.

LAROSE.—Armand, aged 6 months and 12 days, died yesterday at the home of the parents, Joseph and Obeline Larose, 46 Aiken avenue. Burial took place this afternoon at 1.30 o'clock in St. Joseph's cemetery under the direction of Undertakers Amodeo Archambault & Son.

KISCORLEY.—Amela, aged 6 years, 11 months and 21 days, died today at the home of the parents, Michael and Maria Kiscorley, 1 Wall street. Burial took place this afternoon at 1.30 o'clock in St. Patrick's cemetery under the direction of Undertakers Amodeo Archambault & Son.

McKENZIE.—Mrs. Ann McKenzie, one of the oldest residents of St. Patrick's parish, died yesterday at the home of her daughter, Mrs. Frank McMahon, 66 Walker street, aged 73 years. Besides her daughter, she leaves two sisters, Miss Bridget McKeever and Miss Jane McKeever, and five grand-children, Mabel, Alice, Emma, Frank and Joseph McMan.

FUNERALS

O'CONNOR.—The funeral of Joseph O'Connor took place this afternoon at 2 o'clock from the home of his parents, William and Mary O'Connor, 13 Fulton place. Burial was in St. Patrick's cemetery. Undertakers M. H. McDonough Sons in charge.

GOMES.—The funeral of Jazulina Gomes took place yesterday afternoon at 2.30 o'clock from the home of her parents, John and Plumenia Gomes, 21 Bradford street and proceeded to The Church of Portuguese church where at 3 o'clock services were held. Rev. Manuel Rodrigues officiating. Burial was in the Westdown cemetery. Undertakers M. H. McDonough Sons in charge.

NATIRCZYK.—The funeral of Mrs. Peter Natirczyk took place this morning from her home, 15 Spring street. High mass of requiem was celebrated at the Holy Trinity church in High street at 8 o'clock by the pastor, Rev. A. Ogumowski. Burial was in St. Patrick's cemetery, where the committal prayers were read by Rev. Fr. Ogumowski. Funeral arrangements were in charge of Undertakers Amodeo Archambault & Son.

PARTHEM.—The funeral of Julius F. Parthem took place this morning from his late home, 4 Quimby avenue at 8.30 o'clock and was largely attended by relatives and friends. The bearers were Edward Strauss, Otto Schiefus, Herman Woerner and Gottlieb Woerner. The body was sent on the 9.25 train to Boston where interment will take place in Forest Hill cemetery. Deceased was a member of Benevolent Society of the United States No. 58 for Propagation of Cremation. Undertaker Peter H. Strang had charge of funeral arrangements.

STANTON.—The funeral of Michael Stanton took place this morning from his late home, 65 Second avenue, at 8.30 o'clock and proceeded to St. Col-

NEWS FROM CITY HALL
AND DEPARTMENT WORKBig Increase in Registration of
Voters—Evening Schools Open
—Examination for Nurses

A very healthy increase in the total number of voters for the state election this year as compared with last year is shown in the totals obtained at the office of the registrars of voters, the total this year being 15,667 as against 15,150 last year, an increase for this year of 517.

This is a rather unusual increase for a year and is due in a great measure to the busy naturalization sessions during the year, the naturalization classes being much larger than heretofore. But the attacks of the regis-

trars' office do not deny that there has been an uncommon interest manifested in registration for the state election this year and in the course of conversation today it was learned that a great many who have been more or less dilatory in other years have called "round to see the registrars this year and they included a man who was naturalized in 1890 and who never took the pains to get registered until this year.

The time for men who desired to become voters in time to cast their ballots.

TRIAL OF NEW HAVEN MEN

Work of Selecting Jury Resumed
Before Federal Judge Hunt at
New York Today

NEW YORK, Oct. 14.—The work of selecting a jury to try William Rockefeller, Lewis Cass LeMay, Edward D. Robbins, and eight other directors, past and present, of the New York, New Haven & Hartford railroad, charged with conspiracy to monopolize the transportation traffic of New England, was resumed today before Federal Judge Hunt.

Delaney Nicol of counsel for the defendants, resumed the examination of Charles E. Gleason who yesterday was in seat No. 4, three tentative jurors having been selected.

A new panel of 100 takersmen had been summoned in anticipation that the original panel would be exhausted before 12 satisfactory jurors could be found. Fully a third of the new panel also sought to be relieved from duty. Meanwhile Messrs. Rockefeller, LeMay and Robbins were in earnest conversation with John G. Milburn, of counsel for the defendants.

Gleason, who is a jewelry broker, was tentatively accepted by both sides.

Heated Argument
George L. Raymond, a manufacturer of piping and head of a corporation which bears his name, was accepted as juror No. 5, but not until after a somewhat heated argument between Mr. Nicol and R. L. Bette, attorney for the government, over whether he should be required to disclose his banking con-

nections.

Mr. Raymond, however, settled the matter by saying he had no objections to answering the question and stated that he had deposited with the Court Exchange bank. The takersman also informed the court that he had an antipathy against the Sherman anti-trust law, under which the defendants were indicted and thought it ought to be amended. He thought he would be able to give a fair verdict, nevertheless.

J. G. Ham, an advertising agent, the next takersman, was excused by the court after he had stated that he believed the Sherman law had been "overworked."

William D. Tucker, a manufacturer, was tentatively accepted as juror No. 6.

The Seventh Juror
Hugh McLean, a house painter, passed examination as the seventh juror and the court took the noon recess.

C. Barron Taylor, the first takersman examined at the afternoon session, told the court that he did not desire to take any action that might result in Mr. Rockefeller going to jail. He said Mr. Rockefeller had visited the Rockefeller family and that he did not think he could vote for a verdict against him.

"I think Mr. Rockefeller is too old a man to go to jail," volunteered the takersman who was then excused by the court.

55 KILLED; 114 INJURED
IN ZEPPELIN AIR RAIDHeart of London Again Attacked by
German Airships--Docks and Water
Works Heavily Bombarded--Great
Fires Follow

LONDON, Oct. 14.—Fifty-five persons were killed and 114 injured in the Zeppelin raid over London last night.

Fourteen of those killed and 13 of the wounded were military casualties according to an announcement made later by the official press bureau.

The text of the announcement follows:

"The press bureau of the war office announces that a fleet of hostile airships visited the eastern counties and a portion of the London area last night and dropped bombs.

"Anti-aircraft guns of the Royal Field artillery, attached to the central force, were in action and an airship was seen to keel over on its side and drop to a lower altitude.

"Five aeroplanes of the Royal Flying corps went up, but owing to atmospheric conditions, only one aeroplane succeeded in locating an airship. This aeroplane, however, was unable to

overhaul the airship before it was lost in the fog.

"Some houses were damaged and several fires were started, but no serious damage was caused to military material. All fires were soon got under control by the fire brigade.

"The following military casualties in addition to the one announced last night have been reported: 14 killed and 13 wounded.

"The home office announces the following casualties other than the military casualties reported above: Killed, 27 men, 2 women, 5 children; total 41. Injured: 64 men, 30 women, 7 children; total 101.

"Of these casualties, 32 killed and 85 injured were in the London area; and these figures include those announced last night."

FIRES FOLLOW EXPLOSIONS
BERLIN, Oct. 14, (By wireless to Sayville, N. Y.)—An official report given out today by the German admiralty re-

garding the Zeppelin raid on London says that in addition to dropping bombs on the English capital, the water works at Hampton and the town of Woolwich, where there is a great arsenal, were heavily bombarded. Great fires are reported to have followed the explosion of the Zeppelin bombs.

The text of the admiralty's statement follows:

"German airships during the night of Oct. 13-14 attacked the city of London and nearby important establishments as well as the batteries of Ipswich.

"Several attacks were made especially on the city of London.

"The docks of London, the water works at Hampton, near London, and Woolwich also were heavily bombarded with incendiary bombs.

"At all the places attacked important explosions and great fires were observed.

"All the airships returned safely although they were vigorously attacked on passing over the English coast."

SUIT IS SETTLED LORD READING HONORED

Fore River Co. and the
Southern Pacific R. R.
Reach Agreement

BOSTON, Oct. 14.—A settlement of the suit of the Fore River Shipbuilding corporation against the Southern Pacific railroad for a final payment on the building of the steamer Creole was made as the trial of the case was about to be resumed in the federal court today.

The plaintiffs allege that \$100,000 was due on the steamer. Counsel for the railroad stated that by the settlement the Southern Pacific not only was released from the final payment but that the Fore River Co. had agreed to pay \$125,000 in addition for damages through the inability of the steamer to make a contract speed of 16 knots an hour.

The settlement also ended a cross suit filed by the railroad company.

U. S. BREWERS ASSOCIATION
SPRINGFIELD, Oct. 14.—Mayor Frank E. Stacy and Joseph Shattuck of the board of trade welcomed the delegates of the United States Brewers' association at the meeting today. President E. A. Schmidt of Philadelphia turned the meeting over to James R. Nicholson of Boston, and the reports were read.

Lord Reading considered the honor so unusual that he sent the court an engraving of himself with the request that it be placed in some room used by the court in commemoration of the event.

His picture still hangs in the robing room of the justices.

Lord Reading also called on President Wilson. The nature of his conversation with Mr. Wilson, which was of only a few minutes duration, was not disclosed.

ATTITUDE OF GREECE

KING CONSTANTINE SAYS SHE IS
LOOSENING HER SWORD IN ITS
SCABBARD

ATHENS, Oct. 13, via Paris, Oct. 14, 6 p. m.—In response to a request for a definition of the attitude of Greece, King Constantine today made the following statement to The Associated Press:

"Greece is merely loosening her sword in its scabbard. She menaces no one; but she cannot permit that events shall constitute a menace to the integrity of the nation or the freedom of the Greek people.

"It is my duty to preserve my country from the danger of destruction through becoming involved in the general European conflict. I hope to do this at all hazards—if it be possible."

POSTMASTER HELD IN \$500
BOSTON, Oct. 14.—Carl F. Edlund, postmaster at Westdale, a village of West Bridgewater, was brought before United States Commissioner Hayes today on a charge of converting \$1712 of postal money to his own use. He was held in \$500 for a hearing on Oct. 19.

GENERAL ELECTRIC CO.
MAY HAVE PLANT HEREReport That Company Wants
Buildings of Bigelow Carpet
Mills Soon to be Vacated

The business of the Bigelow-Hartford Carpet Co. in this city, will soon be no more, as was predicted in The Sun over six months ago, and within a very short time all the remaining machinery will be taken down and shipped either to the Clinton, Mass., or the Thompsonville, Conn., plant of the company. Rumor has had it for some time that the big plant would be sold, and it is now reported that the General Electric Co. is a very likely purchaser. Supt. Pierce refused to make a statement this morning relative to what the company intended doing with its local buildings.

The company has been withdrawing its business from Lowell gradually. The movement started away back at the first of the year when the Hartford Carpet Co. gained control of the local plants. Since that time machinery has been taken down daily and shipped to Clinton and Thompsonville. Many of the employees who read the handwriting on the wall a short time after the merger went into effect, and some who believed in The Sun's predictions, have left and secured employment in other local manufacturing establishments.

Others have held on tenaciously, hoping against hope that the report would turn out to be only a wild rumor, but these are now willing to believe that the big industry is to be given up locally.

The Bigelow Carpet mill has not been of much benefit to Lowell since the big strike that occurred soon after Agent Lyon's departure and its leaving is not to be at all regretted, providing a good live concern such as the General Electric Co. decides to establish itself here. The carpet plant in this city which was established in 1899 is rated as one of the largest of its kind in the world. The local property is divided into 20 mill buildings and covers an area of 420,000 square feet. The buildings have an area of 1,067,450 square feet, are all modern, well lighted and ventilated, thoroughly protected against fire and in first class condition. There is also a large power plant, consisting of 10 boilers, 3 steam turbines and 3 water turbines. The power plant has a boiler capacity of 1,551 horse power. It also has a share

in the Locks and Canals Co. to an extent which gives approximately 800 horse power for the water wheels at an extremely advantageous figure. The steam and water turbines are coupled with electric generators and all power is transmitted electrically. The machinery drives are well arranged in groups, and individual motors are installed where any advantage can be gained by so doing. The mills have their own side tracks connecting with the Boston & Maine railroad, and have excellent facilities for receiving and shipping goods.

The General Electric Co., which is mentioned as a most probable purchaser of all the local mill buildings is the largest electrical firm in the world. The company was incorporated under the laws of New York to manufacture electrical apparatus and appliances of all kinds. It controls the following companies by the ownership of all or part of their capital stock: Edison Electric Light Co., Edison General Electric Co., Thompson-Houston Electric Co., Thompson-Houston International Electric Co., British Thompson-Houston Co., Ltd., Sacramento Valley & Eastern Ry. Co., United Securities Co., Stanley Electric Manufacturing Co., Electrical Securities Corporation, Electric Bond & Share Co., Sprague Electric Co., Bully Hill Copper Mining & Smelter Co. It also owns

and operates other extensive plants, having an aggregate floor area of 1,439,000 square feet at Schenectady, N. Y.; Lynn, Mass.; Pittsfield, Mass.; Erie, Pa.; Fort Wayne, Ind.; and Harrison, N. J. The Canadian General Electric Co. has the perpetual and exclusive right to manufacture and sell General Electric apparatus in Canada. Since the start of the war the big electrical concern has been overwhelmed with orders and every one of their plants are running to capacity, while a good many orders have been sublet on account of lack of space. Surely the coming to this city of such a large and well established concern would be hailed with delight by the people of Lowell. The Morgan and Schwab steel interests are also looking for the local plant, it is said.

CHARGE AGAINST PASTOR

Alleged That the Rev. Dr. Hillis
Made "Quick, Fabulous Profits"
Through Selling Timber

NEW YORK, Oct. 14.—The charge that the Rev. Dr. Newell Dwight Hillis, pastor of Plymouth church, Brooklyn, made "quick fabulous profits" through selling British Columbia timber claims to ministers and other friends was made today in an affidavit filed by Frank L. Ferguson, former chairman of the board of trustees of the church, and for five years manager of Dr. Hillis' business affairs.

Dr. Hillis had secured an order to examine Mr. Ferguson before a referee. Mr. Ferguson secured an order five days ago requiring Dr. Hillis to show cause why he wished to examine his former business manager. What the argument on the latter order was called today, before Supreme Court Justice Kelley, attorneys for Dr. Hillis asked for additional time in which to answer the Ferguson affidavit, which they termed "false and misleading." The argument was postponed until Oct. 19.

Mr. Ferguson, in his affidavit, states that he had turned over all documents and matter connected with Dr. Hillis' timber deals in British Columbia and denies that his testimony is necessary for Hillis in the libel suit filed against him by his nephew, Percy D. Hillis of Victoria, B. C.

Mr. Ferguson further alleged that Dr. Hillis had between \$3000 and \$5000 when he began speculating in timber lands, but through sales to other ministers and friends he made enormous profits within a year. Dr. Hillis' financial troubles, Mr. Ferguson alleged, were brought on by his own business follies and wilful action. He explained how the pastor had contracted to purchase more than \$500,000 worth of timber lands and Mr. Ferguson declared that he had personally borrowed and turned over to Dr. Hillis more than \$300,000 in an effort to meet his obligations.

days ago requiring Dr. Hillis to show cause why he wished to examine his former business manager. GENERAL ATTACK BY
BRITISH IN THE WESTBritish Have Made General Attack
Along Front From Ypres to Loos—
Accompanied by Bombardment of
Belgian Coast—Italy and Russia to
Participate in Balkan Expedition—
Nish-Saloniki Line Cut

The British have made a general attack along nearly the entire front from Ypres in Belgium to Loos in northern France, the German war office announced today. It declares that all the attacks failed.

The line of the new attack, reported by Berlin, extends for a distance of more than 25 miles. If it proves to be in reality a concerted offensive movement, it represents one of the most extensive the British have undertaken.

The British attack was accompanied by a bombardment of the Belgian coast.

Italy and Russia to Join
Italy probably will take part in the allied movement in the Balkans. Premier Viviani told the French senate today.

That Russia would participate in the Balkan operations of the allies begun

by Great Britain and France, already had been announced by Premier Viviani. Sir Edward Grey in the British House of Commons today made a similar announcement, saying the Russian troops would be sent as soon as they were available.

Premier Salandra Back from Front
The French premier's announcement follows the news from Rome last night that Premier Salandra of Italy had

SUCCESSSES FOR GERMANS

British General Attack Fails—
Russians Checked—Fortified
Works in Serbia Taken

BERLIN, Oct. 14, via London, 4.15 p. m.—A general attack by the British along almost the whole front from Ypres to Loos accompanied by bombardment of the Belgian coast, is reported in the official statement of today from the war office. All attacks of the British are said by army headquarters to have failed.

The Russian army which has been advancing victoriously in eastern Galicia is said by the war office today to have been checked. The Russians were driven back across the Stripa river.

The Austro-German army which is invading Serbia has captured the fortified works to the west, northwest and southeast of Pozarevac. Announcement to this effect was made today by the war office.

The Tagessblatt publishes a report that the Italians have occupied 12 islands in the eastern Mediterranean, in connection with the new developments in the Balkans.

VACANCIES ARE FILLED
CHAS. H. BATT AND J. GREGORY
SMITH CHOSEN DIRECTORS OF
C. V. ROAD

ST. ALBANS, Vt., Oct. 14.—Vacancies on the board of directors of the Central Vermont railroad were filled at an adjourned annual meeting of stockholders today by the election of Charles R. Batt of Boston and J. Gregory Smith of St. Albans. The vacancies occurred through the deaths of C. W. Witters and J. C. McCullough.

At a subsequent meeting of the directors E. J. Chamberlain, chairman of the board and E. C. Smith, president, were re-elected. W. H. Biggar of Montreal was elected vice president to succeed Mr. Witters. The executive committee is composed of Chairman Chamberlain, President Smith and A. Tuttle.

NEW MILLION DOLLAR STEAMER
SAN FRANCISCO, Oct. 14.—A new million dollar steamer, flying the American flag, on the Pacific between San Francisco and Honolulu, was announced as contracted for today by William Matson, head of the Matson Navigation Co., which now owns and operates six vessels between the two ports. The vessel will be built at the ship yards of the Union Iron Works here.

4000 Strikers Awaiting Outcome of Conference Tomorrow

NASHUA, N. H., Oct. 14.—More than 4000 operatives of the Nashua Mfg. Co. and the Jackson Mfg. Co., who have been on strike for two weeks, are awaiting the outcome of a conference tomorrow to be attended by Horace C. Milliken, agent of the Nashua Mfg. Co., William H. Barry, counsel for the strikers and Mayor James H. Crowley. This conference is said to have been arranged by Gov. Roland H. Spaulding, who met representatives of both factions early in the week and endeavored to have them adjust their differences.

IS UNDER MARTIAL LAW

PROCLAMATION PLACING THE HAGUE UNDER MARTIAL LAW ANNOUNCED TODAY

THE HAGUE, Oct. 14, via London, 2:30 p. m.—Martial law in a specified and partial form was proclaimed here today. The proclamation affects the various trades which furnish supplies for the army.

The proclamation, announcing that The Hague was placed under a minor state of martial law, was placarded this morning. The measure affects movements of workmen employed in the trades which provide military supplies. These workmen hereafter will be compelled to obtain military permits if they desire to go to other districts. Foreigners are not affected by the decree.

ATTACK OF ANTHRAX

71-YEAR-OLD LAWYER MAKING REMARKABLE FIGHT—BETTER TODAY

NEW YORK, Oct. 14.—George F. Stackpole, the 71-year-old lawyer, who has made a remarkable fight against an attack of anthrax during the past six days, was today reported by his physicians as showing continued improvement. Mr. Stackpole is not entirely out of danger, however, for the considerable amount of poison in his system has greatly weakened his heart action and estimates have been necessary for the past 45 hours.

When Mr. Stackpole awoke today he immediately asked for the details of the world's series baseball game.

Physicians attending Mr. Stackpole expressed the opinion today that the serum secured from the government would soon entirely offset the poison in the patient's system, and complete recovery would follow.

TROLLEY STRIKE TIES UP TRAFFIC

WILKESBARRE, Pa., Oct. 14.—A street car was again tied up in traffic in this city and adjoining towns for the second time within six months.

LAYMEN'S MISSIONARY MOVEMENT

CHICAGO, Oct. 14.—The Laymen's Missionary movement today opened its campaign for increased interest in missionary affairs, with the first of a series of 15 conventions. The convention here was attended by missionaries from all over the world, many of whom will address the sessions which continue until Sunday evening.

The campaign is to culminate in a national missionary congress in Washington, D. C., April 26 to 30, 1916.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism detests an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process.

Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's today.

EVERY DAY ETIQUETTE

"When I call to take a girl to the theatre should I remove my overcoat?" asked Jack.

"If you have plenty of time to spare you may remove your coat before entering the drawing room, but if the time is limited it will be all right to keep it on," answered his father.

"What is the proper way to word an announcement card when only one member of the bride is living?" queried Madge.

"The card may read thus," said her aunt. "Mrs. Charles Horace Dean has the honor of announcing the marriage of her daughter, Frances to Mr. Henry L. Frank on Thursday, February 11, third, nineteen hundred and one at St. Margaret's chapel."

"I have received an announcement from a newly married couple in another city, and as they will not be home here for a month, I am in doubt about how to send a gift," remarked John.

"A wedding announcement does not call for a gift but if you wish to give one you may wait until they are settled in their new home," suggested his brother.

"Will you please tell me the difference between a man's and a woman's visiting card?" asked Marjorie.

"A man's card is both thinner and smaller than a woman's, but it should be equally fine in quality and engraving. The full name and the street address appear on either card," advised her aunt.

"When friends call to express sympathy after a death, is it necessary for the person called upon to see the caller?" asked Mrs. Brown, recently bereaved.

"No. One should ask to be excused if she is not sure of absolute convenience," advised her friend.

"Should I shake hands when introduced to a young man?" asked Constance.

"It is not necessary unless you have a particular liking for the one introduced. In formal gatherings one should shake hands only with ones hostess," said her aunt.

THE MEXICAN SITUATION

WILLIAM LOEB, JR. APPEALS TO STATE DEPARTMENT TO HELP STOP CONFISCATION

WASHINGTON, Oct. 14.—William Loeb, Jr., representing American smelting and refining interests in Chihuahua, Mex., appealed to the state department today to use its influence to stop the confiscation of the American plants targeted threatened by General Villa. General Carranza has assured that the department would do all in its power to protect American interests.

Villa has denied any intention of interfering with the property.

NOT AUTHORIZED BY VILLA

Decree Threatened Confiscation of American Smelting and Refining Properties

EL PASO, Tex., Oct. 14.—Villa officials in Juarez today explained that the recent decree threatening confiscation of the American smelting and refining properties and also that of other large mining companies in Mexico had been issued by Gen. Fidel Avila of Chihuahua, without authority from General Villa.

NO BREAK WITH CARRANZA

General Obregon Denies Report of Disloyalty to First Chief in Mexico

TAMPICO, Mex., Oct. 13, via Laredo, Tex., Oct. 14.—Gen. Alvaro Obregon, who is conducting Venustiano Carranza on a tour of inspection, learned today that rumors of his disloyalty had become common and had been published in the American papers. Reports that he was about to break with Carranza have been current in Mexico for days, but no one had spoken to Obregon of this.

"It was with the greatest surprise that I read this account of a break with the first chief," he said to a correspondent of The Associated Press and requested a denial of it.

Carranza's favor today was taken up largely in receiving callers and accepting social favors from his friends here. It is expected the march will be resumed some time tonight and Monterey reached some time Thursday.

Accompanying Carranza is Ignacio Bonillas, head of the department of communication and public works. The visit of Bonillas to Tampico was attended by material benefit to the citizens of Tampico. The bar at the mouth of the harbor has increased in size until it had practically closed the port to large vessels. Attention of Mr. Bonillas was called to the situation and he issued orders today for a dredge to be brought here from Tampico and placed at work immediately to deepen the channel.

Obregon rendered to Carranza a report in detail of operations in the north and central part of Mexico. State by state he pictured the situation and according to this report there are few places in which the control of the constitutionalists is not complete. Railway and telegraph communications have been re-established throughout the greater part of the region and the disposition of troops has been such as to maintain this supremacy.

COUNT HELD IN \$3500

MAX LYNN LOUDEN HELD ON AFFIDAVIT CHARGING SEDITION OF BIRMINGHAM

NEW YORK, Oct. 14.—Count Max Lynn Loudon, said to be a civil engineer and inventor of military appliances, who was arrested here last night, was held in \$3500 bail for examination today in which Judge Hendon's decision. In cotton circles it was generally believed that the case would be appealed in an effort to get an opinion from the United States supreme court as to whether the method of applying the tax of two cents a pound undredged cotton futures act was unconstitutional or not.

DEATH OF FERNAND GOETZ DEAD

BERLIN, Oct. 14 (by wireless to Say, N. Y.).—Fernand Goetz, of Berlin, president of the German Automobile Union and founder of the Touring Club of San Francisco, is dead at the age of 64.

OPEN GOLF TOURNAMENT

PRO-ELITE, Oct. 14.—The annual golf tournament of the elite club will be held today and tomorrow at the club house. The tournament is open to all members of the club and is one of the most important events of the season.

RE-ORGANIZATION OF CARRANZA

MEXICO CITY, Oct. 14.—The re-organization of Carranza's government will be a political action by the president of the Mexican Republic. The re-organization is expected to bring about a more efficient government.

THE BRITISH NAVY

Little News Published in London—Reprint Articles from U. S.

LONDON, Oct. 5 (Correspondence of the Associated Press).—British papers have republished from American and other neutral papers various estimates of the number of German submarines sunk by the British, but so far the admiralty has authorized no figures or estimates of its own, contenting itself with the explanation of A. J. Balfour, first lord of the admiralty, that since the number is not definitely known it is better neither to under estimate nor over estimate it.

The British public noted with satisfaction the small number of ships—six only—that were reported sunk by submarine attack last week. While this was not a line appears in print here, recently some of the London papers republished from an American paper an article about a new air craft constructed to fight Zeppelins. It was passed by the press bureau with the observation that it could in no degree do justice to the accuracy of any of the statements therein.

When the American papers were printing references to the net across the English channel, describing it even to the name of the makers, there was not a word about it in the British press. Indeed, if a London publisher should be permitted to print any of the many articles about the British navy that are appearing so frequently in the American journals.

ARREST 330 STRIKERS

TAKEN INTO CUSTODY SINCE GARMENT WORKERS WALKED OUT IN CHICAGO

CHICAGO, Oct. 14.—Three hundred and thirty strikers have been arrested since the garment workers walked out in Chicago, according to a report made by Deputy Superintendent of Police Schiller today to the aldermanic committee which is investigating the trouble. The report added that of those arrested 17 were not strikers.

AGAINST ZEPPELIN RAIDS

LONDON PAPER ADVOCATES BOMBING OF SLEEPING TOWNS IN GERMANY

LONDON, Oct. 14, 2:55 p. m.—The Globe which has been conducting a campaign advocating reprisals for Zeppelin attacks, says today: "This article shows now that the Zeppelin, choosing its own time and circumstances for attack, is practically immune against the ordinary weapons of aerial warfare. The only way to hit the enemy is to strike at him as he attacks at us—to bombard his sleeping towns."

HELD AS GERMAN SPY

MAN SAID TO BE AN AMERICAN TAKEN OFF NORWEGIAN STEAMER AT BELIZE

MOBILE, Ala., Oct. 11.—Frank Westmann, said to be an American, is reported by his wife to have been taken off a Norwegian steamer, Dictator, on the Norwegian coast, suspected of being a German spy. Mrs. Westmann says she has papers to prove her husband's American citizenship.

COTTON FUTURES ACT

MANAGERS OF EXCHANGE DO NOT CONTEMPLATE ANY CHANGES IN BY-LAWS

NEW YORK, Oct. 14.—Owing to the feeling of uncertainty among cotton traders as to the attitude the New York cotton exchange would take following the decision by Federal Judge Thayer that the cotton futures act was unconstitutional, the board of managers of the exchange today issued a statement saying that it did not contemplate any changes in the by-laws or rules of the exchange which would affect existing contracts.

No confirmation was obtained today of the report that the government intended to appeal from Judge Hendon's decision. In cotton circles it was generally believed that the case would be appealed in an effort to get an opinion from the United States supreme court as to whether the method of applying the tax of two cents a pound undredged cotton futures act was unconstitutional or not.

AMSTERDAM, via London, Oct. 11. 4.30 a. m.—The death of Archduke Ludwig Salvator of Austria at Brindisi castle on the Elba is announced by German newspapers. He was 63 years of age.

The archduke was known chiefly as an explorer and scientist. He was an honorary member of the Royal Geographical Society and of the Académie des Sciences.

Grand Dukes of Tuscany.

MR. PARKHURST RESIGNS

RAILROAD AGENT AT CHELMSFORD WILL GO INTO BUSINESS FOR HIMSELF

Harry L. Parkhurst, who for the past 20 years has filled the position of agent for the N. Y., N. H. & H. railroad at Chelmsford, has resigned, his resignation to take effect to-day. Mr. Parkhurst will turn his attention to the development of the coal and wood business.

POSTOFFICE CHANGES

The changes in the interior of the local postoffice which have been underway for some time, even before the

\$184,000,000 an increase of approximately \$75,000,000. The plan in its approved form will be presented to congress with the full backing of the administration.

Much of the increased appropriation would be devoted to coast defenses and a substantial increase in the field artillery. Details as to increases in the personnel of the army have not yet been made public.

If the navy, which will ask for an increase of \$106,000,000, carries through its plan, making the total naval appropriation \$215,000,000, the appropriations for national defense including the army's \$184,000,000 would total \$122,000,000. It is probable, however, that in final form the appropriations will not exceed \$169,000,000.

are now completed and a big job that was being handled by the new mail carrier is working without fault, the entire outgoing mailing division has been transferred to the second floor of the building. This enabled Postmaster Meehan to have the incoming mailing division moved to the Corham street entrance, which has a greater part of the floor space for the carriers. As a result, instead of being crowded and oftentimes de-

dition, the carriers now have plenty of time to sort their mail without coming in contact with each other during the rush.

TO ASSIST ARMENIANS

GENEVA, Oct. 14, via Paris, 2.26 p. m.—A committee of influential persons including government officials and representative professional men have been formed in Geneva with the object of

about the particular horse, attempted to pass by the animal, when he was kicked in the abdomen. The injured man was removed to the farm house, but despite medical attendance, he passed away the following day.
